PUBLIC NOTICE

All members of the public please take notice that in August, 1999, Antioch Water Company filed a Petition to change and increase its rates and charges for water service with the Tennessee Regulatory Authority. The monthly water service rate changes and increases have been proposed because the utility's existing rates and rate structure do not produce sufficient revenues to permit the utility to meet its operating expenses. The tap fees have been increased to provide funds for the present and future expansion of the utility's water treatment plant and other capital improvements and in produce revenue to permit the utility to meet its operating expenses. No hearing date has been set for the Petition. The proposed rate revisions are set forth as:

Commercial - No commercial customers are served by Antioch Water Company.

Residential - The proposed rates increased existing rates and change the manner in which monthly sewer service rates will be charged. Under existing rates, monthly residential rates are a flat monthly rate of \$15.00, plus tax. Under the proposed rates, residential customers will be charged a flat rate of \$36.30 per month, plus tax. These rate changes will result in an increase of \$21.30, plus tax, in each residential customer's monthly rate.

Tap Fees - The existing residential tap fee will increase from \$500.00 to \$1,000.00.

A complete copy of the proposed tariff changes and the reasons for them are on file with the utility's business office and Tennessee Regulatory Authority and are open to public inspection.
